JUNIOR AGRONOMIST

Are you ready to launch your career in agriculture? This is an excellent opportunity for a recent crop scientist graduate to gain practical experience with an agricultural chemical and fertilizer supplier connected to one of South Africa's largest fruit-producing companies. In this environment, you will be exposed to valuable industry knowledge, supportive mentorship, and opportunities for rapid professional development.

Key Role:

- This role offers hands-on experience in pest and disease identification, crop protection, field scouting and monitoring, field trials, and the safe use of agricultural products.
- The successful candidate will also be involved in depot administration, stock control, stock reconciliations, and financial processing.

Requirements

- BScAgric or similar
- Passion for agriculture
- Strong organizational skills
- Must be happy to work in Tzaneen
